

Better. Faster. Greener.

Optimize Your Cloud, AI, and 5G Infrastructure with Supermicro Server and Storage Systems

FORTUNE 1000 **\$3.3B** FY2020 Revenue **Nasdaq** #5 Computer Hardware Industry

IDC #4 Global Server Vendor

Industry's Broadest Server and Storage Portfolio

Application-Optimized From Edge-to-Cloud

First-To-Market Innovation

Accelerated Development and Deployment

US-Based Design, Research, Operations and Manufacturing

Global Operations in 100+ Countries

#1 Green500 Supercomputer MN-3 Powered by Supermicro Systems

Delivering the World's Best
Performance-Per-Watt

Intel Deploys over 250,000 MicroBlades™

45% to 65% CAPEX Savings
from Disaggregated Design

IDLab Deploys Most Powerful Supermicro GPU Server

Cuts Down AI Research Time 90%,
to 40 Minutes from 7 Hours

Solutions Optimized for Best Performance, Efficiency, and TCO

Rackmount

Multi-Node

SuperBlade®

GPU-Optimized

Storage

5G / Edge / IoT

Global Onsite Services and Open Industry Standard Management Software
for Maximum Scale, Efficiency, and Reliability
