

# TWO CRITICAL PATHS, ONE COMPLETE PORTFOLIO

Accelerating data center demands are driving new kinds of storage needs.

Whether you need to SCALE UP or SCALE OUT Supermicro storage systems enable continuous/confident growth and evolution.

## UP OR OUT? THAT DEPENDS ON YOUR DESTINATION

Businesses working to “right size” their storage needs have two paths.

### SCALING UP = GROWING PREDICTABLY

Add more cost-effective storage chassis to your deployment.

- Straight forward economics
- Fast and simple

The key to success is understanding the deployment scope and mission of the storage.

### SCALING OUT = GROWING RAPIDLY

Scale towards exponential growth.

- Scale capacity without limits

The key to success is identifying changing requirements as they occur, and planning ahead for common scaling challenges.

## EITHER WAY YOU GO, SUPERMICRO GETS YOU THERE FAST

The Supermicro storage solutions portfolio gives you better choices – and more of them.

Supermicro is a leader in supplying rack-scale solutions to VARs, CSPs, and Enterprise, with three decades of experience in product development, manufacturing, supply chain logistics, solution testing, and service and support.
